MSK + E-S Plus

State-of-the-art technology + traditional vending

Jofemar has joined together smart kiosk technology to traditional vending systems to offer new smart unattended sales solutions in industries such as restaurants, recreational or retail facilities, etc. This provide a much more interactive and dynamic purchasing experience.

The MSK model guarantees an optimal management of any point of sale and allows a comprehensive control of all the products and its prices, stocks and loyalty. Designed as a selection and prepay system, it features a 27" Full HD touchscreen, an innovative coin mechanism with external recovery motor and it is fitted to equip any payment system (including banknote return), loyalty card readers, up-sale system.

The MSK model can manage up to four vending machines, so it is the perfect complement for the Vision E-S Plus machine, a module that allows selling large products, such as tools, large electronic devices, as well as food items, among others. It significantly increases the number of channels and the storage capacity compared to other machines in the same product range.

VISION E-S PLUS MAIN FEATURES

- Capacity for up to 8 height-adjustable trays with up to 10 channels each.
- FIFO system. Continues renewal with the freshest product.
- Correct sale detection with photocells.
- LED lighting with on/off programming.
- Glass front door.
- Continuous performance self-testing.
- Health timer to prevent selling out-of-date product. Programmable expiration date by selection or channel.
- Flexible setup and programming. Its channel adjustment system allows incorporating new products at any time without using tools.
- Programmable motor torque for each selection.
- Modular cabinet structure treated against rust and corrosion.
- Vandal-proof security lock with three anchor points.
- Injected foam insulation system that guarantees maximum energy efficiency.
- Fitted to equip cooling unit and soft delivery elevator.

MAIN MSK FEATURES

- Fitted to manage up to four slave vending machines.
- 27" Full HD touchscreen.
- Built-in computer.
