

ARTIC.

AGUA

1.5L bottles to
quench your thirst

The Artic Agua machine is specifically designed to vend 1.5L water bottles. Despite its reduced footprint, it has a high storage capacity and features an innovative slope sell system that avoids product loss of shape and delivery jams.

FEATURES

- Cooling unit with adjustable temperature control.
- Capacity: 66 1.5L bottles.
- Number of channels: 2 channels for 1.5L bottles.
- Selections: 2.
- FIFO (First In First Out) System. Continues renewal with the freshest product. Product dispensing according to loading order.
- Lighting system with on/off programming.
- 1,688 x 620 mm back-lit front advertisement panel.
- Continuous performance self-testing.
- Power mains: 230V, 50 Hz.
- Estimated energy consumption: 700 watts.
- CFC-free R-134a gas cooling.

STRUCTURE

- Modular cabinet structure treated against rust and corrosion.
- Vandal-proof security lock with three anchor points.
- High-capacity cash box with lock and optional auto-locking during extraction.
- Injected foam insulation system to guarantee efficient cooling and lower energy consumption.

CREDIT MANAGEMENT

- MDB or Executive vending protocols.
- Innovative Jofemar coin mechanism with five return tubes for up to five different coin values and the most reliable fraud-prevention systems.
- Allows installation of card and banknote readers.

PROGRAMMING

- General on site programming through the machine's keyboard and a display system for the accounting data, accessible from inside the machine.
- Compatible with the Jofemar EasyFlash handheld terminal for stock control and accounting.
- Compatible with the latest telemetry systems for the end-to-end remote machine management.
- RS232 port with accounting data output.
