

Coffeemar

BLUETEC

A coffee... with style

This range represents the perfect combination of technological innovation and special features with an elegant and modern finishing. Available in different configurations, Coffeemar Bluetec machines stand out for their new aluminium boiler and their product selection touch keyboard, as well as for their striking new look and improvements in design, labels and lighting. It is the most versatile and reliable model, suitable for any location thanks to its innovative design with a finish of glass and stainless steel.

FEATURES

- Pressure valve in the brewing unit to keep constant pressure during the complete brewing cycle.
- Motorised water distributor without electrovalves.
- Aluminium boiler with resistor and capped probes, with no contact with the water (avoiding o-rings and calcium oxide formation).
- Two cup-dispenser models, depending on the cup diameter (65-67 mm or 67-69 mm).
- Adjustable stir-stick dispenser, between 75 mm and 115 mm long.
- Self-cleaning of mixing bowls, product exit and grinder assembly: manual or automatic (programmable).
- Anti-steam sugar-adding system directly into the cup.
- Constant temperature control of the water in the boiler.
- Braking system at collection drawer.
- Coffee bean grinder assembly (own module).
- Easy cleaning and maintenance of removable elements.

STRUCTURE

- Tempered glass front embedded in metal, with no access to the sides.
- Smudge-proof stainless steel finishing.
- Steel cabinet treated against rust and corrosion and vandal-proof lock with crowbar-resistant door integrated into the structure.

CREDIT MANAGEMENT

- Innovative Jofemar coin mechanism with connection for both Executive and MDB protocols, five return tubes and T-15 coin validator with the most reliable fraud-prevention systems.

PROGRAMMING

- General on site programming through the machine's keyboard, EasyFlash hand terminal, PC or modem by telemetry using J-Suite.
- Data storage and stock control and accounting.

OPTIONS

- Self-feeding water kit (one or two 25L tanks, in the 546 model).
- Coffeemar Bluetec 546 fitted to be connected to a Vision ES or ES Plus machine.
- Screen on the upper part of the 546 model for videos and nutritional information.
- Water filters: anti-scale or flavour.
- Card and banknote payment systems.
- Telemetry by GSM or GPRS modem using J-Suite
- Customisable image.
