

TAOS

air

The Taos Air Pod is the smallest and most compact solution to include a cashless payment system in satellite vending machines Vision ES and Vision ES Plus. Side detached Control Unit with all management features necessary for a perfect operation of vending machines. This new type of multiproduct sale point installation uses up less space and offers a perfect purchase experience to the end user.

FEATURES

- Vending machine temperature control through the module.
- Continuous performance self-testing.
- Health timer to prevent selling out-of-date products. Programmable expiration date by selection or channel.
- Adjustable motor torque for each selection.
- Powered by the satellite vending machine.
- Lightened external frame

COMPATIBILITY

- Satellite Vision E-S and Vision E-S Plus vendors.
- Jofemar microwaves unit.
- Casia Lockers system.

STRUCTURE

- Cabinet structure treated against rust and corrosion.
- Vandal-proof security lock.
- Standard hole for EVA size card readers.

PROGRAMMING

- General on site programming with the machine's keyboard and the LCD screen messages.
- Compatible with the Jofemar EasyFlash tooling for stock control and accounting hand terminal.
- Compatible with the latest telemetry systems for the end-to-end remote machine management.
- RS232 port with accounting data output.

OPTIONS

- Jlink gateway device and communication with Jofemar vending telemetry platform Jsuite
- Online operation with real-time control of users and sales.
- Up to four slave vending machine modules for higher capacity and number of selections.

VANDAL-PROOF LOCK
